01

Healthcare Crisis

Venezuela is facing an unprecedented humanitarian emergency, recognized by many international organizations.

03

Our Solution

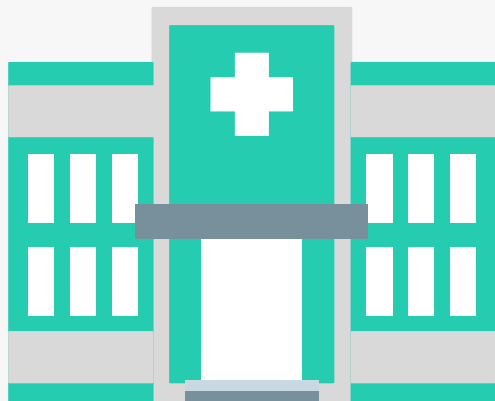

Our solution is to create a hospital directory system from where all the information about hospitals can be obtained.

02

Problems of General Public

The political and economic crisis exacerbates the suffering of Venezuelans who require medical treatment.

Venezuela's Healthcare Crisis

Venezuela is facing an unprecedented humanitarian emergency, recognized by many international organizations. It is sorrowful to see the Magnitude Of Venezuela's Health Crisis. It is so bad that patients who visit the hospital, must bring both their own food and their own medical supplies.

Problems of General Public

Ven

Solution

Mission is to provide the public with a guide that will allow them to receive general information about the hospital in case of emergency & non emergency.
